### \***New Life Currents in China.**

*Mary Ninde Gamewell*

This book shows in a striking way the vast influence that Christianity is exerting for human conservation in China, not only in building up a stronger race physically but in developing the intellectual and spiritual resources of a mighty people. Mrs. Gamewell writes with conviction and authority, because of her close acquaintance with the Chinese people. By way of special preparation for writing this book, she made an extended tour of China, and therefore she is able to interpret the latest movements in politics, in the public health campaign, in general and medical education, in Christian missions, and in the Christian Church.

SUGGESTIONS TO LEADERS of Classes using *New Life Currents in China*, by Mabel E. Emerson. Price, 10 cents.

# **A Better World**

*By Tyler Dennett*

Ready at an early date

(George H. Doran Co.)

**A new and vital book on Christianity and World Missions in the Reconstruction Period.**

The book opens with an account of the Peace Conference which Mr. Dennett attended as a correspondent; it treats of present religious and revolutionary conditions in Europe and estimates present religious resources.

The chapter-titles indicate the timely interest and the scope of the book: The Unfinished Task at Paris; The League and the Changing World; Christianity, Democracy, and Internationalism; Europe, the War, and Religion; Non-Christian Nations and Races; The Next Century; The New Patriotism for America.

Mr. Dennett has spent nearly three years in Europe and Asia, studying missionary work; and this far-seeing writer proves that the Gospel of Christ is a political, economic, and biological necessity.

Probable price, cloth, \$1.35; paper, 60 cents; prepaid.

## \*Foreign Magic.

*Jean Carter Cochran*

Miss Cochran is well known for her witty and intimate stories of the people of China. In this book she has collected some of her sketches that have appeared in the *Outlook* and in other magazines and has added several hitherto unpublished.

The scene of many of the stories is the region surrounding a great mission hospital; and they reveal in a striking manner what the Christian doctors and nurses have meant to the impoverished and disease-stricken population of China. At this time, when the attention of the mission study classes is being turned to medical missions and the conservation of human life, these stories have special value.

Artistic cover-design; well illustrated. Especially suitable for a gift book.

Handsomely bound; price, \$1.50, prepaid.

## The Uplift of China.

*Arthur H. Smith*

Although written in 1906, Dr. Smith's book contains a great amount of information about the background of Chinese life which is of permanent value and which every student of China will wish to own. The writer is recognized as one of the outstanding authorities on China; and his descriptions of the country and its people, their history, customs, and religions, give the general facts that each mission study class will need for reference.

Price, paper only, 50 cents, prepaid.

## **The Emergency in China.**

*F. L. Hawks Pott*

The author completed his work on this manuscript after the opening of the Chinese Parliament in 1913. It thus contains a full treatment of the great Revolution of 1912 and is a valuable reference book on the political movements in recent Chinese history and on the great social, industrial, and religious transformations which accompanied the Revolution. The book has an especially fine review of China's international relations.
